

6608 HYDROCHECK MONOTEST CHLORIDE

RANGE: 0,5 - 20 ppm Cl^-

NUMBER OF TEST: 20

KIT CONTAINS:

- 20 test tubes with pre-measured reagent
- 1 test tube for blanc
- 1 bottle reagent M/1
- 20 stickers for tube
- instructions

NOTES:
The MONOTEST kits significantly simplify the analysis in laboratory. They offer high precision and reliability, they are easy and safe to use.
All kits contain 20 test tubes with pre-measured reagent.
They must be used with a spectrophotometer with a 16-mm-round cell-holder.
It is advisable to use a spectrophotometer as the HC 7800 or Uvi-Line, because we provide them with preloaded factors and they do not require the preparation of a calibration curve.
The SPECTRATEST kits, which offer a much lower cost per analysis, are recommended when performing many analysis to be repeated frequently.
