

## Code 6017 HYDROCHECK TITRATEST PHOSPHONATES

SENSITIVITY: see notes

TEST QUANTITY: 2.000 units

### KIT CONTAINS:

- 1 bottle titrant Phosphonate
- 1 bottle indicator Phosphonate
- 1 bottle reagent Phosphonate A
- 1 bottle reagent Phosphonate B
- 2 test tubes 20cc
- 1 syringe 5cc
- 1 titrating syringe (3,75cc)
- instructions

### NOTES:

There are many different type of phosphonates on the market. That means that a unit of titrant can correspond to different concentrations of phosphonates. To use this kit the user shall analyze a sample of known concentration and then determine a factor that multiplied for the number of units of titrant employed will show the exact concentration of phosphonates for the following tests.

The correct use of the titrating syringe allows to get the same precision as a good burette.

HYDROCHECK allows very simple and quick test to a low price.

### ACCESSORIES AND REFILLS

- Hydrocheck Titrator with 1 titrating syringe
- titrant, package 6 bottles with 1 titrating syringe
- indicator phosphonate, package 6 bottles
- reagent phosphonate A, package 6 bottles
- reagent phosphonate B, package 6 bottles
- titrating syringe, package 6 pcs
